

# MATERIAL HANDLING EQUIPMENT

---

Moving, handling and storing your goods

Lifter by Pramac design means compact dimensions, precision of manoeuvrability and high performance allowing to have **ease of use, enhanced ergonomics and efficiency.**

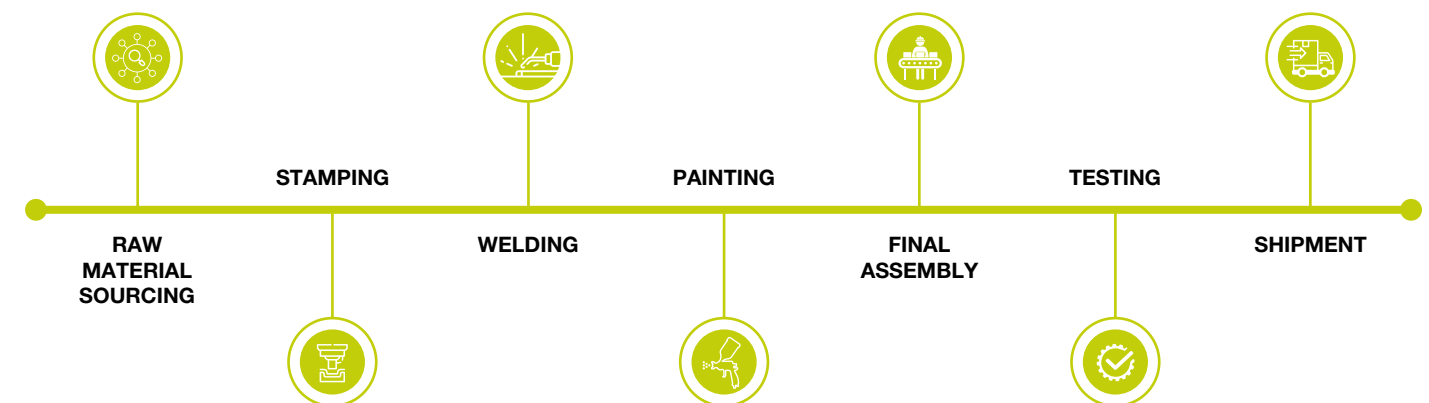

The continuous and constant work to enrich product features ensures that you receive nothing but the best **quality** and **safety**.

## Vertically integrated, European production set up

Consolidated know how due to over 40 years of experience in material handling equipment manufacturing and **Lean manufacturing process**, with many and severe internal tests, guarantee **high quality standards**.

The vertically integrated production and craftsmanship capability allow offering a **wide range of solutions** to meet any specific customer's need and **high level of customization**.

All Lifter by Pramac products are designed to meet **100% compliance** with current standard regulations, and internal quality tests ensure **excellent reliability and durability**.

## About us

Pramac is the global benchmark for the production of generators and battery energy storage solutions. 2016 saw Pramac become part of the Generac group, forming the world's third-largest generator producer. Pramac corporate purpose is to lead the evolution to more resilient, efficient, and sustainable energy solutions, with a broad suite of products powering a smarter world.

# ELECTRIC PALLET STACKERS

Wide range of lifting solutions designed to cover a wide variety of use cases, from narrow spaces to large warehouses, for light-duty or heavy-duty applications, up to 5.5 meters shelves.

## LX

Strong and reliable AC powered full optional stacker, for heavy duty use, equipped with traction battery, it handles loads up to 1.6 tons and reaches shelves up to 5.5 meters.

### Equipment:

- Ergonomic tiller with 8 levels battery status indicators
- Traction battery 24V/225-300Ah
- Hourmeter
- Proportional forks control for better and faster loading/unloading

### Option:

- Automatic water refilling system

## GX

Powerful and reliable stacker with double mast, it is the ideal solutions to work in confined spaces. It allows reaching shelves up to 4.2 meters and is very compact, available in duplex and triplex version.

### Equipment:

- Long life gel batteries 24V/105Ah or Lithium batteries 24V/80Ah
- Ergonomic tiller: Battery status indicator, hour meter and turtle button
- Forks control fully proportional
- On-board battery charger

## NX

Compact and reliable, ideal for light-duty use with a lift height up to 3.5 meters.

### Equipment:

- Variable speed forks control
- Compact design
- Multifunctional tiller with battery status indicator, hour meter and turtle button
- On-board battery charger
- AGM 24V/85Ah battery

## TX

Manual traction and electric lifting, simple to use and reaches shelves up to 3.5 meters.

### Equipment:

- 4 curves tiller
- ON / OFF lowering valve
- Foot brake

### Batteries:

- Starter type 12V - 24V/70Ah
- Long life gel 12V - 24V/50Ah

## MX

A strong product the MX range has reinforced forks, steel pulley and forks precisely driven by rollers.

- Equipped with a foot pedal to lift forks, which considerably reduces the operator's effort.
- Available in Nylon steering wheels and rollers for easy operations

## STRADDLE VERSION AVAILABLE

All stackers are also available in straddle version, which gives the possibility to adjust forks and clamps for great versatility in the handling of pallets of different sizes.

### **Pramac is always by your side, with a dedicated after sales support**

As a global company, the after sales team is made of people from different part of the world; this diversity and shared knowledge is an added value for the company and the customers.

Lifter by Pramac assists customers providing service division offers, interventions on field, installations, repairs and rewindings support. The highly trained engineers and technicians undergo continuous training and quality programs, ensuring complete accordance with technical, quality, and regulatory standards.

Service and Parts indeed offers trainings and learning tools to help dealers and customers to improve their product's technical knowledge and operational skills.

## **A global network for a wide offer of parts and after sales support**

### **Spare parts kit**

On-line spare parts order and interactive spare parts catalogues

### **Service support**

Worldwide approved service network

### **Certified operators**

Dedicated training programs for users, maintenance and after sales service

### **Manuals and guides**

A complete set of technical information, offering quick and efficient solutions
